INTRODUCTION

In 2014, the County Manager’s Office and the Human Services Agency spearheaded a study to help identify and address the needs of approximately 32,000 veterans residing in San Mateo County. Many other County departments, as well as veterans working for the County, participated in the process. Drawing from primary data such as interviews and focus groups and secondary data like statistical information, the goal of the study was to learn more about the needs of veterans in the County, the services currently available to them, and the areas of unmet need.

The San Mateo County Veterans Needs Assessment 2014 found that while many veterans residing in the County have stable employment, housing and social support networks, some veterans require additional support, including access to benefits and safety net services, mental and behavioral health services and affordable housing.

KEY FINDINGS INCLUDED:

• More than half of the veterans in the County are age 65 years or older. This group of veterans reported the need for assistance in accessing civilian and veterans’ benefits.

• While 95% of veterans are male, a higher percentage of younger veterans are female - close to 20% of veterans ages 18-34 and close to 10% of veterans ages 35-54 in the County. Women veterans reported the need for additional services targeted to them, and increased awareness by all veteran-serving agencies of the issues specifically confronting women veterans.

• Veterans are overrepresented in the County’s homeless population, comprising approximately 12% of its homeless population, while comprising only 6% of its overall adult population.

• With San Mateo County being one of the least affordable housing markets in the state, access to affordable housing was identified as a need by veterans consulted for the study.

POTENTIAL AREAS OF FOCUS INCLUDED:

• Expanding education and outreach efforts to veterans who are seniors so they have better access to critical benefits and services;

• Bringing greater recognition and visibility to issues that disproportionately impact women veterans, such
as military sexual trauma and the deficit of services targeted to women veterans’ needs;

• Developing policy recommendations which would help increase access to affordable housing for veterans and their families; and

• Recommending initiatives that facilitate the provision of emergency or transitional shelter and ancillary services and assistance to homeless veterans.

As the result of this needs assessment, the San Mateo County Board of Supervisors, on June 2, 2015, took action to appoint a nine member Veterans’ Commission and defined the purpose of the Commission as follows:

• To promote programs that foster the well-being of veterans in San Mateo County;

• To increase the understanding and visibility of issues that disproportionately impact underserved segments of the veterans’ population, including, but not limited to, seniors, women, LGBTQ members, and the homeless;

• To provide outreach and support to underserved segments of the veterans’ community in San Mateo County;

• To develop initiatives to support San Mateo County veterans and their families; and

• To report and make recommendations to the Board of Supervisors as needed, but not less frequently than once every twelve (12) months.

DUTIES, FUNCTIONS AND POWERS OF THE COMMISSION

The duties, functions and powers of the Commission were defined in the founding resolution (#073812):

• To advise and make recommendations to the Board of Supervisors;

• To develop and implement an annual workplan;

• To provide a public forum for input from the veterans’ community to identify unmet needs;

• To work with existing veterans’ advocacy and service organizations to help coordinate systems of care and benefits;

• To act as an advocate for veterans, taking positions pertaining to federal, state and local policies, programs, procedures and any legislation affecting veterans and their families; and

• To fulfill other duties and engage in other activities as directed by the Board of Supervisors.

The Veterans’ Commission envisions San Mateo County as a place where veterans and their families thrive.

MISSION OF THE VETERANS’ COMMISSION
A mission statement is a brief expression of the Commission’s purpose. It should answer the questions “Why do we exist?” and “What, at the most basic level, do we do?”

The mission of the Veterans’ Commission is to promote public awareness, advocacy, programs and policies that enhance the well-being of veterans and their families in San Mateo County.

VALUES
The values statement defines the principles on which the Commission is built, and that guide its planning, operations and programs. It answers the question “What do we believe in?”

GOALS AND OBJECTIVES

Together, goals and objectives define desired outcomes resulting from the Commission’s work. They may be focused on the organization’s programming or internal operations. Progress toward achieving goals and objectives should be measurable. While the terms are often used interchangeably, goals are generally more comprehensive or far-reaching than objectives. Framed clearly, they answer the question “What do we want to accomplish?”
